Subject: water testing

Dear Trish,

Roy Seneca responded to my query about testing our water in Dimock by saying he had forwarded it on to you. Did you get this request? Just in case you did not, I am repeating it here. Please let us know when this test can be accomplished. Thank you.

My wife and I own property in the Dimock Township neighborhood that is within the focus of EPA's water-quality concerns.

We have a water well on the property but have not yet built a home there. The land sits directly across the road Ex. 6 - Personal Privacy from the Lewis No. 2 gas well, and adjacent to the house owned by Ex. 6 - Personal Privacy. Because we do not live there yet (we live 6 miles away), your water testing team may have overlooked our water well. We are concerned about possible contaminants in our water, as earlier testing conducted by Cabot and later by an independent lab showed showed elevated levels of methane and some heavy metals. We would like to request that EPA test our water too.

Please let us know if and when this can be done. The address of our property is Ex. 6 - Personal Privacy. There is a gravel driveway into the property that leads to the well head and a 24x24-ft. garage.

Thank you for your attention to this matter.
